The greatest beroine in Atchison is a 16-year-old girl. Four years ago her father died, leaving six other children, who were all small. There was a mortgage of \$250 on the house, and the family was in a dilemma, as they were foreigners and could only speak a few words of English. girl got work in an Atchison estab-lishment, and inside of six months was making enough money to sup-port the family. For the last two years she has been sending the chil-dren to school, and since her father died has paid off \$150 of the mort-gage, besides paying every dollar of the funeral expenses. At odd times she studies, and has learned to speak the English language perfectly. Her employer has also promoted her to the position of overseer of the works. She walks two miles to her work every day, as she lives in the su-burbs. - Atchison Globe.

A Man with Three Wiwes.

In Richafelder township, in Ohio, lives a man named Adam Roundy, who recently moved there with his wife and two other women, who, be said, were his daughters. It finally became known to the neighbors that all three were Roundy's wives. Fithey were all much in love with him, and, being unable to agree which should marry him, determined to all three clope with him. They seem contented with their lot.

Our Funny Congressmen.

A student of the Congressional Record finds that never before has the word "laughter" been bracketed so often in the speeches of members as in the record of the recent session.

Our Baby Was a beauty,fair,plump and healthy. But when two rearsold Scrofula. Humor spread over her

Emma Frederick, great sore itching and burning. Hood's Sarsaparilla gave b ife and appetite. Then the humor subsided, the itching and burning ceased, and the sores entirely healed up. She is now per-fectly well." I. W. FERDERICK, Danforth St., sear Crescent Ave., Cypress Hills, Brooklyn.

Hood's Pills cure all Liver Ills, billioussess, nausea, sick headache, indigestion.

"August Flower"

"I am happy to state to you and to suffering humanity, that my wife has used your wonderful remedy, August Flower, for sick headache and palpitation of the heart, with, satisfactory results. For several years she has been a great sufferer, has been under the treatment of eminent physicians in this city and Boston, and found little relief. She was induced to try August Flower, which gave immedaite relief. We cannot say to much for it." L. C. Frost, Springfield, Mass

CURES RISING

: BREAST :

"MOTHER'S FRIEND" is the greatest blessing ever offered child-bearing woman. I have been a mid-wife for many years, and in each case where "Mother's Friend" had been used it has accomplished wonders and relieved much suffering. It is the best remedy for rising of the breast known, and worth the price for that alone.

MRS. M. M. BRUSTER,
Montgomery, Ala.

I can tell all expectant mothers if they will se a few bottles of Mother's Friend they will o through the ordeni without any pain and uffering.

Arguaville, N. D.

Used Mother's Friend before birth of my ighth child. Will never cease its praise.

Miss. J. F. Moorg, Colusa, Cal.

Sent by express, charges prepaid, on receipt of price, \$1.50 per bottle.

BRADFIELD REGULATOR CO.,

THE CHOLERA DIMINISHING

NEW YORK FREE OF THE PEST.

The Scaudia Released From Quarantine. Secretary Foster Says the Danger is Past.

THE SCANDIA RELEASED. The banner pest ship of the Hamburg fleet, the Scandia, which arrived at New quarantine from Hamburg September 9, with a record of 32 deaths during the voyage, hoisted anchor Thursday and sailed for Baltimore, the port for which she was originally destined. All her passengers who have been on Hoffman Island for the past ten days or more, were landed at Ellis 1sland.

Secretary of the Treasury Charles Foster said Friday; "I consider the danger passed. Nevertheless, the Government will not relax its vigi ance."

All reports from the detained steamships at the Upper and Lower Quarantine stations, New York barbor, are faverable, and with Fire Island and Camp Low depopulated, and the last of the Scandia's passengers released from Hoffman Island, the cholers may be said to be stamped out. The only infected ship left in the lower bay is the Bohemia, the last vessel to arrive with cholera. Her steerage passengers were transferred to Hoffman Island, and the ship was disinfected more thoroughly than was possible while the people were on board.

In the upper bay a number of ships are detained, most of them being held because they are from Hamburg, but on none of them have any signs of cholera been dis-

covered.

The N. Y. state board of health in its current report says: "Of Cholera to September 24 there were within the city limits of New York 8 sporadic cases and 6 deaths. The first occurred September 6. No new cases existing at date mentioned. Twenty-two deaths occurred in the port, which is free from the disease at this issue."

The five new cases on board the Bohemia at Quarantine, S. I., reported September 27 seem to have been the last flicker in the expiring fiame of cholera. Dr. Byron's report for Thursday night was as follows: "Tatients under treatment for cholera. 31; for measles, 3; convalescents, 34; no new cases or suspects since September 27."

FEOFLE RETURNING TO HAMBURG.

PEOPLE RETURNING TO HAMBURG.

The number of fresh cases of cholers at Hamburg on Thursday was 120, 9 more than Wednesday: deaths 340, 19 less than day before; burials 149, 17 fewer than Wednesday. The hospitals are treating only 1,158 patients, 711 fewer than previous day. From Altona nine fresh cases and nine deaths are reported.

The return of the fugitives has now fairly begun, and all trade, outside of the harbor district, shows a daily increase.

The work of cleaning, disinfecting and improving the lower quatters of Hamburg is continued with unabated energy, and will be prosecuted throughout the winter, in anticipation of a slight outbreak next summer. At Berlin two new and 10 suspected cholera cases appeared; at Cracow and Podgorze one death each occurred; at Buda Pesth four deaths and five new cases are reported.

A VILLAGE STRICKEN WITH CRECLERA.

The cholera epidemic is assuming serious PEOPLE RETURNING TO HAMBURG.

The cholera epidemic is assuming serious proportions at the Porral, a village near Boulegue, France. Work is entirely suspended, and the situation becomes more critical every day. There have been over 100 cases in the last ten days and 21 deaths

TEN MEN BURIED ALIVE.

Caught by a Cave in in a Mins. The Voices of The Entembed Men Heard by The Rescuers.

A cave-in occurred at the East Norric mine, at Ironwood, Mich. Ten men are entombed. The mine was surrounded all day by weeping and frantic women and children and the scenes were pitiful.

Hundreds of men are work-ing to rescue their companions, The company is driving pipes to get air to the men If the water in the mine does not rise and drown them they may be rescued. Voices can be heard at in-

The names of the entombed men are John Johnson, Abraham Thompson, Frank Damshon and Samuel Damshon, miners; four timber-men names unknown, two trammers names unknown. The skip tender is also missing and it is feared that he was caught in the cave-in.

A HARD LUCK STORY.

The Sarvivors, However. Will Have Lots of Cash to Spend. The whaling steamer Mary G. Hume, Captain Tilton, arrived in port at San Francisco. 14 days from Unalaska. The steamer has been gone over two years and a half, and for two winters was housed in the ice. She came back with only two men forward. Two of her crew were drowned at Unalaska one died in the North, and a number died before the Arctic ocean was reached. Her catch for the cruise has been 38 whales, the one and oil of which are worth \$400,000.

bone and oil of which are worth \$400,000. The Hume was out about 100 days when the first accident occurred, resulting in the loss of two of the crew. A small boat was capsized and a sailor named Briscoll and a German named Paul were drowned. Stewart Myers died from rheumatism the first winter. Both winters the steamer was quartered at Hereschel island, and in the spring went to Cape Bathurst and McKenzie river.

In the second winter scurvy broke out and there were seven men down at one time. A lad named Raymond Lapierre was taken to Marine hospital in this city almost a wreck.

KILLED WITH AN AKE.

Two Men Arrested for the Brutal Murder of an Inoffensive Man.

At New York, Frank Paulsen, aged 55 years, and a veteran of the war. was found lead in his room, the victim of a most brutal and revolting murder.

brutal and revolting murder.

Charles Knoch, a former associate of the murdered man, who frequently visited him at his boarding house. No. 139 Hester street, was arrested on suspicion. He is a tall and powerful man, whose dress coincides with the description given by the murdered man's landlady of a man whom she saw running from the house a few moments befoe the discovery of the crime.

No motive can be ascribed for the act, as none of the murdered man's effects had been disturbed. The crime was apparently committed with an axe or an adze.

Frank W. Rohle, a Swede, was also arrested on suspicion. He had an ax under his coat and with it tried to kill the offices who arrested him.

Four Lives Lost in a Wreck.

The west bound fast express on the West ern railway ran into some wild cars at Opel-ika, Ala. The engineer, Lewis Willis, and fireman, Thomas Willis, brothers, were instantly killed. Postai Clerks Landoum and Carter were fatally hurt, and six passengers seriously injured.

TRADE BETTER THAN EVER.

Business Continues to Increase Steadily

R. G. Dun & Co.'s Weekly Review of Trade says:

Business continues larger than ever at this time of the year, and the commercial sky is without a cloud. While the season brings the usual shrinkage in distribution of textile goods, the mills are nevertheless crowded with orders and the demand of the products of iron, steel and leather has improved. Money is everywhere in ample supply and collections have very rarely been more generally satisfactory, so that the demand for commercial loans is unusually light for the season. The outgo of money from West-ern centers, for purchases in the country, is larger than usual, and yet there is no embarrasement. Crop reports are uniformly favorable, and the promise is distinctly better than it was a few weeks ago. At the South trade is much encouraged by some advance in the price of cotton, and it is therefore more active. In general business is not only large and remarkably healthy, but the outlook for coming months is everywhere regarded with the utmost

is everywhere regarded with the utmost confidence.

At Boston dry goods are active and the mills very busy, with the demand such in some lines that they cannot produce goods fast enough. Collections are excellent. The boot and shoe trade is very satisfactory, and sales of wool are much larger than last year. At Philadelphia tron improves with large sales, and hardware, recently quiet, is now more scrive. The liquor and tobacco trades are busy, the manufacture of cigars, and the jewelry trade improved, with good trade in oil and naval stores, dry goods are moving steadily and trade in glassware is very busy. At Cleveland trade is improving and larger than last year, and at Cincinnati the clothing trade is better than previous years. Although a slight decline is seen at the South, the Wostern trade largely exceeds previous records.

Chicago reports merchandise sales greater than last year, the harvest progressing well, money active, and all conditions good. Receipts of products show an increase in everthing except rye; moderate in flour, pork, cheese, wool and hades, a quarter in barley, seed hogs and sheep, two-thirds in butter, two-fold in drossed beef, cared meats and broom corn and three-fold in wheat, corn and oats. At St. Louis trade is distinctly better in dry goods, shoes, bats and railway supplies, and collections are prompt. At St. Paul business is larger than a year ago; at Omala very active, with an increase over list year in many lines, at Kanasa City good, with heavy receipts of cattle and grain and elevators about full. Business at Denver is modera e.

Wheat and oafs are nearly a cent and corn is cent and corn.

elevators about full. Business at Denver is modera e.

Wheat and oals are nearly a cent and corn 12 cents lowe, and receipts of wheat at Western points have been 6,225,695 bushels in four days, against exports of only 650,116 bushels. Speculation in cot on has been enormous, sales reaching 1,360,000 bales, with an a ivance of a quarter during the week, in spite of better receipts and more favorable crop reports. Purk products are higher; pork 75 cents per barrel, lard 55 and hogs 25 cents per 100 fb. Coffee is an eighth stronger, but ou about 2 cents lower. Western receipts of cattle are 175,000 head, against 145,000 the same week hast year. Coal is more active but at out rates, deliveries having been made this month at May prices, and agents decline to make another nominal advance.

The Trensury has paid out \$800,000 more notes, against as much more silver added, and have been made the content of the production of the content of the con

notes, against as much more silver added, and has taken in \$2,000,000 more gold dur-ing the week, but the demand for money at the West and South continues smaller than

the West and Sold ures during the last seven days number for the United States 277, Canada 31, total 268; as compared with 211 last week, 182 the week previous to the last, and 230 for the corresponding week of last year.

Two Ugly Fires. At Chicago a disastrous fire occurred in the Nickel Plate freight yard. Forty cars of merchandise were consumed. The loss is estimated at \$100,000.

At Denver, Col., the Buenna Vista hotel, a two-story frame dwelling at the corner of Sixth and Lawrence Streets, was destroyed by fire. Gustave Kearse perls hed in the flames and Annie Conderson, A. McDougall and Tom Arnold were severely burned

A Missouri Tragedy.

Harvey Plattenburg, a brother-in-law of the late Maj. John N. Edwards, the well known newspaper writer and author, shot and instantly killed James McDowell at Lexington, Mo. Policeman David M. Gray attempted to arrest Plattenburg and was shot and fatally wounded. Plattenburg was afterward lodged in jail. It is said there was a long standing grudge between the two men. Plattenburg comes of one of the oldest and best families in the State.

A FATAL BOILER EXPLOSION. Three Men Killed By An Exploding Lo-

comptive.

At Birmingham, Alabama the boiler of a ocomo:ive on the Tennessee Coal, Iron and Railroad Company's road, blew up instantly killing Engineer John Eimore and fatally scalding Fireman Benjamin Garner Samuel Estes, standing a hundred yards away, was struck and fatally hurt. Nothing was found of Engineer Elmore's body, except one foot, 300 vards away.

Struck Twice in the Same Place.

At Schenectady, N. Y., John Shavor, aged 75. while sitting at a window was struck by lightning a few weeks ago, partially paralyzed and) marked with a scarlet circle on his right cheek, below the eye. The other night there was a terrific crash of thunder, and Shavor's daughter ran into his room, where she found him dead on almost the same spot where he was struck before.

Harrity Orders Another Ballot. At Harrisburg, Pa., Secretary of State Harrity ordered the printing of another sample ballot containing the presidential ticket of the People's party and Socialist-Labor party, whose nomination papers have been

filed since the printing of the specimen ballot recently mailed to County Commission-

ers and other officials. A Small Boy Roasts Hin Sister. Tommy Crutch, 6 years old, the son of the Rev. Thomas Crutch, of Magnolia, Ark., while playing with his 4-year-old sister. lit a match and placed it under her clothea The child was burned to a crisp.

Justice Is Slow in Rome They manage their criminal busi-ness very carefully in Rome. It has taken the authorities three years to complete the arrangements of the trial of seven persons for forgery. Meanwhile the suspects have been it

Nearly 900,000 grown English people can neither read nor write.

Jedge Waxem's Political Proverbs The Congressman that thinks this Government kin be run on \$3.75 a week most generly eats with his

knife. Thar is Congressmen that thinks if is trezon to taxpayers fer Uncle Sam to use a bath tub instid ov washin' to the crick.

The Congressman that wares a pa per koller and fassens his gallus with a shingle nale thinks \$5,000 a yer is too much wages fer him.

It takes some Congressmen a long time to find out the differents betwixt a paved street and a country lane. It's a sine of progress when a Con-

gressman ain't afeered to walk on a velvet carpet with his boots on. Thar's a good deal besides legislashun fer a Congressman to lern in Washington.

Some Congressmen never larns how to drink shampane without gaggin' at the price. A Congressman that will ware a

poalker dot cravat with a dress sute is always hollerin' for retrenchment and reform. A Congressman that won't pay his just debts ain't fit to make laws. Some Congressmen ain't the fools

-Free Press.

they look, and then again some air.

A simple and cheap way to keep moles out of a yard is to plant a few castor beans, says a St. Louis paper. These are quite ornamental in appearance and seem to have the power of keeping moles at a distance. naturally sounds like a superstition. but hundreds of suburban owners and renters will confirm the statement that the remedy, or rather the pre-ventive, is most effective. It often happens in a new subdivision that yards are cut all to pieces by moles, with the exception of those in which castor beans are growing, these escaping every time, the only inference being that there is something in the smell of the plant or the root which keeps away the burrowing pesta.

A SHARSPBARE for children, edited by a Philadelphia man, threatens such innovations as "I am thy papa's

Business is alive to a great coming event, and in the hurly-burly of its proparations for the Coiumbian Exposition in 1803, too much is already seen on the the strests of a faneiful or amusing nature, both superficial and catchpenny. There has been observed a void in the line of the strictly useful, combining there with instructive object lessons and the beautiful in art. Books there may be by the score, but the experience of the Centennial Exposition at Philadelphia shows that the unass of these were mere trifles and uncerviceable. The horde of visitors were ever at less for a handy pecket guide of official stang, not only reliable, but pleasing and always fit to keep. Just what is wanted of this unique sind has happly already made its appearance, and we have before us "Ins Oppical Pourpointo of the North's Columnian Exposition." Illustrated from Water Color Drawings.

This Portfolio is a rare and beautiful expoent of the main architectural features of the Great Exposition at Chicago in 1831. The fourteen magnificent structures are faithfully exhibited, while the Hird's-ye View gives a realistic glance at the lay of the grounds, with their principal buildings, lagoons, etc. The Illustrated on the original drawings, made especially for this purpose from the official plans, by Amerion's best known water color refects, of the original drawings, made especially for this purpose from the official plans, by Amerion's best known water color refects, of the original drawings, made especially for this purpose from the official plans, by Amerion's best known water color refects, of the original drawings, made especially for this purpose from the official plans, by Amerion's best known water color refects, of the original drawings, made especially for the purpose from the official plans, by Amerion's best known water color refects, of the original drawings, made especially for this purpose from the official plans, by Amerion's best known water color refects, of the original drawings, made especially for the purpose from Just What Is Wanted.
